

2.4/5 GHz Dual-Band 4x4 Wi-Fi® 6 (802.11ax) Access Solution

88W9064

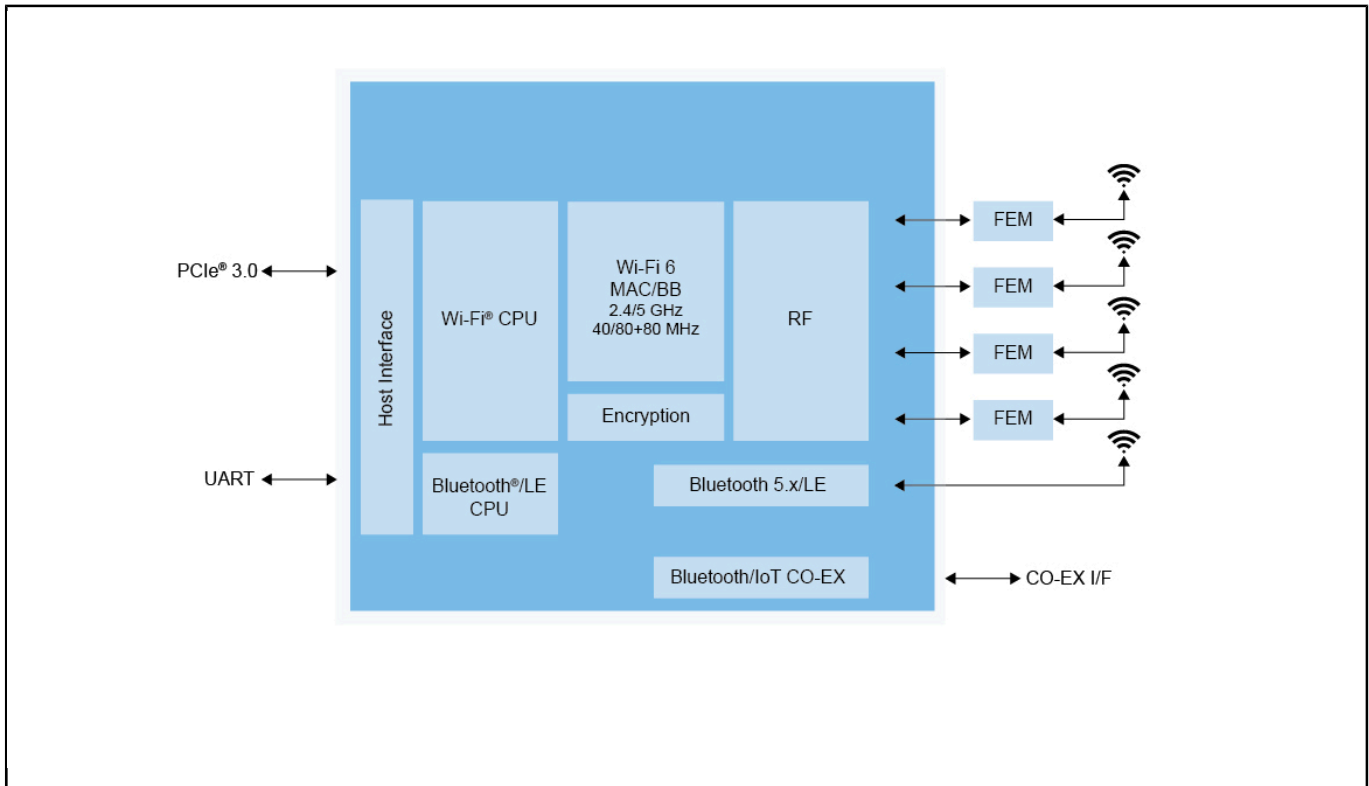

Not Recommended for New Designs

This page contains information on a product that is not recommended for new designs.

Last Updated: May 31, 2023

The 88W9064 is part of the next evolution of our advanced [Wi-Fi 6](#) access solutions that have enabled award-winning platforms. This device family provides a complete 802.11ax feature set. Drawing on the strength of our proven implicit and explicit beamforming technologies, our full MU-MIMO and OFDMA solutions help increase capacity not only for downlink traffic but also for uplink traffic. This allows for overall improved network utilization while meeting the growing demands of user applications.
